## THE UNIVERSITY ALMA MATER

*Hail to Alma Mater!*  
*We will sing thy praise forever;*  
*All thy sons*  
*and daughters*  
*Pledge thee victory and honor*  
*Alma Mater,*  
*praise be thine,*  
*May thy name forever shine!*  
*Hail to Purple!*  
*Hail to White!*  
*Hail to thee, Northwestern!*

## THE CAP AND GOWN

The cap and gown are worn by each participant in the Commencement exercises. The cap is worn throughout the ceremonies, except that men remove their academic caps for the National Anthem, the Invocation, and the Benediction. Gold and silver cords represent the Mortar Board Senior Honor Society. The tassel colors are as follows:

Arts and Sciences .....	<i>White</i>
Medical .....	<i>Green</i>
Law .....	<i>Purple</i>
Speech .....	<i>Silver Gray</i>
Dental .....	<i>Lilac</i>
Music .....	<i>Pink</i>
Graduate School of Management .....	<i>Acorn</i>
Journalism .....	<i>Crimson</i>
Education .....	<i>Light Blue</i>
Technological Institute .....	<i>Orange</i>
Traffic Institute .....	<i>Acorn and White</i>
Graduate .....	<i>Black</i>
Nursing .....	<i>Gold</i>

Guests are respectfully requested to remain in their seats during the entire ceremony. The aisles of the hall must be kept clear at all times, and those who leave their seats before the close of the ceremony must leave the building immediately through either the north or south door, whichever is closer.

Smoking is permitted only in the outer main floor lobby.

## HONORARY DEGREES

### THOMAS G. AYERS—DOCTOR OF LAWS

Corporate executive, civic leader. B.A., University of Michigan, 1937. From 1973 until his retirement in 1980, he served as chairman and chief executive officer of Commonwealth Edison Company, which he joined in 1938. As a member of numerous Chicago-area corporate boards, as a director and past president of the Chicago Association of Commerce and Industry, and in various other capacities, Ayers has contributed importantly to the economic revitalization of the metropolitan Chicago area. As current chairperson of the Boards of Trustees of the Chicago Symphony Orchestra, the Dearborn Park Corporation, and Northwestern University and as former chairperson of the Metropolitan Crusade of Mercy, he has also been a leader in the civic life of the community. A committed participant in the effort to extend full employment opportunities to minorities, he was honored in 1973 as Man of the Year by the Chicago Urban League. In 1981 he was elected a Laureate of the Lincoln Academy of Illinois, and in 1983 he was named Chicagoan of the Year by the Chicago Press Club. This month he will retire as chairperson of Northwestern's Board of Trustees, a position he has held since 1975.

*Presented by Howard J. Trienens, Chairperson-designate of the Board of Trustees, Northwestern University*

### JAMES EMMETT BIRREN—DOCTOR OF SCIENCE

Educator, psychologist. Ph.D., Northwestern University, 1947. Currently dean of the Andrus Gerontology Center at the University of Southern California, Birren has been a leader in developing aging as a significant scholarly field. Through his publications, numbering more than 200, on neuropsychology and the social and educational problems of aging and through his extensive service to professional organizations and governmental agencies concerned with the topic, he has greatly influenced the understanding of the aging process and the implications of aging for public policy decisions. His handbooks on aging have become the definitive source for behavioral and social science research in the field. Birren has received the Distinguished Scientific Contribution Award of the American Psychological Association and the Brookdale Foundation Award for Gerontological Research.

*Presented by Bernice Neugarten, Professor of Education, School of Education and Social Policy; Professor of Sociology, College of Arts and Sciences*

### BERNARD BUDIANSKY—DOCTOR OF SCIENCE

Educator, engineer. Ph.D., Brown University, 1950. Currently Gordon McKay Professor of Structural Mechanics and Abbott and James Lawrence Professor of Engineering at Harvard University, Budiansky began his career in engineering immediately following his receipt of a bachelor's degree in 1944. As an aeronautical research scientist at NACA, the forerunner of NASA, he pioneered the idea of slip theory in plasticity and published his first research paper at the age of 21. His subsequent research interests have focused on buckling of thin structures and cracks in solids and composite materials; many of his findings have been of great importance in various fields of engineering. From 1978 to 1984 he served as a member of the NASA Space Systems and Technology Advisory Committee; he is currently a member of the Aeronautics and Space Engineering Board of the National Research Council. He is a member of both the National Academy of Engineering and the National Academy of Sciences.

*Presented by Tai Te Wu, Professor of Biochemistry, Molecular Biology and Cell Biology, College of Arts and Sciences; Professor of Biomedical Engineering and of Engineering Sciences and Applied Mathematics, Technological Institute*

### RACHMIEL LEVINE—DOCTOR OF SCIENCE

Physician. M.D., McGill University, 1936. Currently executive director and director of research of the City of Hope Medical Center in Duarte, California, Levine has also served as chairperson of the Department of Medicine at New York Medical College. As a researcher, Levine demonstrated that the cell is not merely a freely permeable reservoir for nutrients, that there are membrane barriers that can restrict ready access, and that hormones such as insulin may act to promote nutrient utilization by unlocking these barriers. For his contributions to the understanding of endocrine processes in terms of cellular and molecular biology, Levine has received numerous awards. A member of the National Academy of Science, he has also served as president of the American Diabetes Association, the International Diabetes Association, and the Harvey Society.

*Presented by Norbert Freinkel, C. F. Kettering Professor of Medicine, Professor of Molecular Biology, and Director of the Center for Endocrinology, Metabolism and Nutrition, Medical School*

#### **WILLIAM HARDY McNEILL—DOCTOR OF HUMANE LETTERS**

Educator. Ph.D., Cornell University, 1947. Milliken Distinguished Service Professor of History Emeritus at the University of Chicago, McNeill's earliest work was in the area of Greek and Balkan history. Subsequent work has been devoted to advancing the field of world history, studying the interactions between simple and complex societies, opening up the field of the history of disease, and demonstrating the centrality of military history. His major books include *The Rise of the West: A History of the Human Community* (1963); *Europe's Steppe Frontier, 1500–1800* (1964); *Venice: The Hinge of Europe* (1974); *Plagues and Peoples* (1976); and *The Pursuit of Power: Technology, Armed Force, and Society* (1982). In 1964 *The Rise of the West* received the National Book Award for nonfiction. Past president of the American Historical Association, McNeill is a Fellow of the American Philosophical Society and the American Academy of Arts and Sciences.

*Presented by Bryan S. Reid, Jr., Trustee, Northwestern University*

#### **MIRIAM LOUISA ROTHSCHILD—DOCTOR OF SCIENCE**

Entomologist. Author of more than 275 scientific papers in fields ranging from marine biology to plant/insect interactions, Rothschild is best known for her work in parasitology and, in particular, her work on the flea. Somewhat of a hero in Australia, she assisted government authorities there in breeding rabbit fleas in order to control the proliferating rabbit population in the Australian outback. Her work on butterflies contributed importantly to the establishment of ecological biochemistry as a new interdisciplinary field. Among her books are *Dear Lord Rothschild: Birds, Butterflies, and History* (1983), a biography of her uncle, Walter Rothschild, a British zoologist, and *Fleas, Flukes and Cuckoos* (1952), which explains for the lay reader parasitism, symbiosis, and other species interrelationships. In 1983 she was made a Commander of the British Empire in recognition of her scientific research.

*Presented by Robert C. King, Professor of Ecology and Evolutionary Biology, College of Arts and Sciences*

#### **GEORGE PRATT SHULTZ—DOCTOR OF LAWS**

Public official, corporate executive, educator. Ph.D., Massachusetts Institute of Technology, 1949. When appointed secretary of state in 1982, Shultz returned to Washington from the presidency of the Bechtel Group, Inc., a San Francisco-based engineering company. As an adviser to and member of both Republican and Democratic administrations, he had previously held a number of important positions in the federal government, including those of secretary of labor, from 1969 to 1970; director of the Office of Management and Budget, from 1970 to 1972; and secretary of the treasury, from 1972 to 1974. Following receipt of his Ph.D., Shultz taught industrial relations at M.I.T. and at the University of Chicago Graduate School of Business, where he was named dean in 1962. A specialist in labor relations, he has throughout his career been a vigorous advocate for equal opportunity in higher education, government employment, and the labor market. He is coauthor of several books, including *The Dynamics of a Labor Market* (1951) and *Strategies for the Displaced Worker* (1966).

## GRADUATE SCHOOL

*Candidates presented by Dean Clarence L. Ver Steeg*

### DOCTOR OF PHILOSOPHY

- Michael Accorsi, B.S.C.E., University of Delaware, 1980; M.S.C.E., 1982. Theoretical and Applied Mechanics. *Micromechanically Based Constitutive Relations for Periodic Composites With Elastic, Elastoplastic, and Nonlinear Creep Material Behavior*.
- Gerald E. Adams, A.B., Earlham College, 1974; M.S., Northwestern University, 1982. Geological Sciences. *An Experimental Investigation of Ca in Olivine in CaO-MgO-SiO<sub>2</sub> and CaO-FeO-MgO-SiO<sub>2</sub> and its Application to Geobarometry of Spinel and Garnet Lherzolites*.
- Sallie Tucker Allen, B.S., Hampton University, 1959; M.S., Hunter College of the City University of New York, 1968. Education—Administration and Policy Studies. *Organizational Commitment of Leaders of Nursing*.
- Patricia Wirth Arand, B.S., Northwestern University, 1981; M.S., 1983. Electrical Engineering. *An Investigation of Arterial Properties in Normal and Diseased Man Using Four Techniques*.
- Frank Ojo Arasanyin, B.A., Catholique Universite de Louvain, 1978; Lic., 1980. Linguistics. *Tense and Aspect: A Semantic Approach to Temporal Codification in Yoruba*.
- Adrienne Armstrong, B.A., Boston University, 1975; M.A., Northwestern University, 1978. Political Science. *Debt and Development: The Impact of the International Financial System on Development Strategies in the Periphery*.
- Alan C. Baily, B.S., Bucknell University, 1979. Materials Science and Engineering. *Irradiation Induced Point Defect Production in Copper and Copper Doped with Beryllium: Effects of Recoil Energy and Temperature*.
- June Barnhart, B.A., Northeastern Illinois University, 1977; M.Ed., Harvard University, 1978. Education—Teaching-Learning Processes. *Written Language Concepts and Cognitive Development in Kindergarten Children*.
- Miriam Ben-Yoseph, B.A., The Hebrew University of Jerusalem, 1973. French and Italian. *From the Reader in the Text to the Reader of the Text: Manon Lescaut and Adolphe*.
- Andrea Frances Benn, B.S., University of Illinois at Urbana-Champaign, 1971; M.Ed., University of Virginia, 1972. Education—Counseling Psychology. *The Dynamics of Dialogue: The Psycholinguistic Functions of Language in a Verbal Autistic Child*.
- Paul Joseph Berlowitz, B.S., University of Rochester, 1980; M.S., Northwestern University, 1984. Chemical Engineering. *The Reactions of Diazomethane and Azomethane on Pt(111) and the Decomposition of 2-Propanol on ZnO Single Crystal Surfaces*.
- Mary Jo Blaschak, B.S., Texas Woman's University, 1976; M.S.E.E., Purdue University, 1978. Biomedical Engineering. *An Investigation into Mechanisms of Spastic Muscle Weakness Through an Analysis of Surface EMG Characteristics*.
- Peter Miller Blonsky, B.A., Grinnell College, 1981; M.S., Northwestern University, 1982. Chemistry. *Polyphosphazene-Based Solid Electrolytes: Synthesis, Complex Formation, Conductivity, and Ion Transport*.
- Michelle J. Bobier, B.A., Kenyon College, 1975; M.A., The University of Chicago, 1976. English. *John William De Forest's Kate Beaumont: A Critical Edition, With Introduction*.
- Judy Ellen Bourn, B.A., Miami University, 1978; M.A., Northwestern University, 1981. Sociology. *How Businesses Find Lawyers: A Study of Organizational Information Gathering*.
- Polly Fulton Breen, B.S., The University of Michigan, 1976; M.A., Northeastern Illinois University, 1980. Communication Sciences and Disorders—Learning Disabilities. *The Use of Exophora and Anaphora in Mother-Blind Child Dyads: A Comparative Study of Sighted and Blind Preschoolers*.
- Robert Alan Brown, A.B., Oberlin College, 1976; M.A., University of Maryland, 1981; M.A., Northwestern University, 1982. Finance. *The Existence and Effects of the Information Based Keynesian Speculative Equilibrium Hypothesis of Asset Pricing*.
- Thomas Steven Buchanan, B.S., University of California, San Diego, 1980; M.S., Northwestern University, 1982. Theoretical and Applied Mechanics. *A Biomechanical Analysis of the Neural Control of Muscles About the Human Elbow Joint During Isometric Tasks*.
- Douglas Walls Bunnell, B.A., Yale University, 1978. Clinical Psychology. *Object Relations in Anorexia Nervosa*.
- Jose G. Cabañas, Ingr., Instituto Politecnico Nacional, 1977; M.S., Northwestern University, 1979. Materials Science and Engineering. *Grain Boundary Cavitation During High Temperature Fatigue of Copper-Aluminum and Aluminum-Magnesium Alloys*.
- Hector A. Calderon, B.S., National Polytechnic Institute, 1980; M.S., Northwestern University, 1983. Materials Science and Engineering. *Ostwald Ripening of Nial Precipitates in Fe Base Ni-Al-Mo Alloys*.
- Norman Wesley Carlson, B.S., Northwestern University, 1981; M.S., 1983. Chemical Engineering. *The Adsorption Kinetics of Methane/Ethane Mixtures on 4A Zeolite*.
- Joong Rae Cho, B.S., Seoul National University, 1979. Civil Engineering. *A Model of the Regulated Housing Market with Fixed Prices and Quantity Rationing: The Stockholm Prototype*.
- Hyeong-Ah Choi, B.A., Seoul National University, 1980; M.S., 1982. Computer Science. *Scheduling Data Transfers in Networks*.

- Ching-Roung Chou, B.S., National Taiwan University, 1974; M.S., National Chiao-Tung University, 1978. Computer Science. *Analysis of Distributed System Software Design Based on Structured Petri Net Model.*
- Charles V. Clevenger, B.S., Northwestern University, 1982. Tumor Cell Biology. *Characterization of the Proliferation Associated Nuclear Antigen p105.*
- Mitchell C. Colton, B.S., University of Kansas, 1980; M.S., Northwestern University, 1981. Chemistry. *Theoretical Studies of State-Resolved Molecular Collision Dynamics.*
- Bradley Condie, A.B., Wheaton College, 1976; M.A., Northwestern University, 1977. Philosophy. *Towards a Transcendental Phenomenological Ethics: An essay examining the phenomena of moral sensibility based upon the philosophy of Edmond Husserl.*
